

**Statement of President Frances Wagner on the
Release of Recommended Maps for Kentucky Redistricting
December 6, 2021**

On behalf of the League of Women Voters of Kentucky, I offer the attached Recommended Maps for consideration by Kentucky's elected officials, our Fair Maps partners, and the citizens of our Commonwealth.

These Recommended Maps propose district lines for Kentucky's six U.S. Congressional seats, 38 Kentucky Senate seats, and 100 Kentucky House seats. We have designed these districts to:

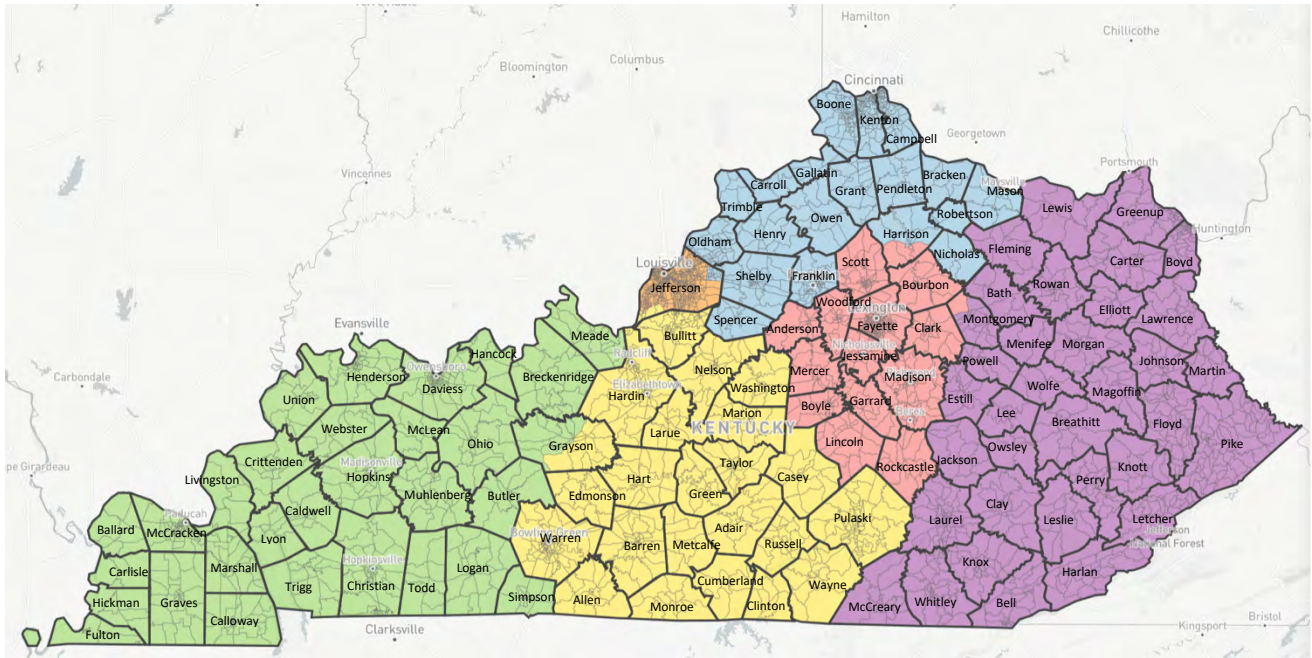

- Reflect 2020 Census data.
- Apply feedback from hundreds of Kentucky voters gathered at our fall 2021 Fair Maps Forums and through our website, along with what we have learned from sustained study of Kentucky redistricting from 2017 to the present.
- Honor federal and state "one person, one vote" requirements for equal representation.
- Maintain districts of opportunity for voters from racial minority groups in keeping with the Voting Rights Act.
- Fit within Kentucky's constitutional rule requiring minimal division of counties in state legislative districts.
- Follow our League commitments to seeking compact districts, keeping county seats intact when possible, and ignoring how our map choices may affect incumbent office-holders.

The Maps are available for download at lwvky.org, along with a separate document with links to interactive districtr.org versions of the Maps, an index of how each county is placed in the Maps, and notes on some key choices that went into the map design. We welcome questions and comments on all aspects of these maps at info@lwvky.org or 502-875-6481.

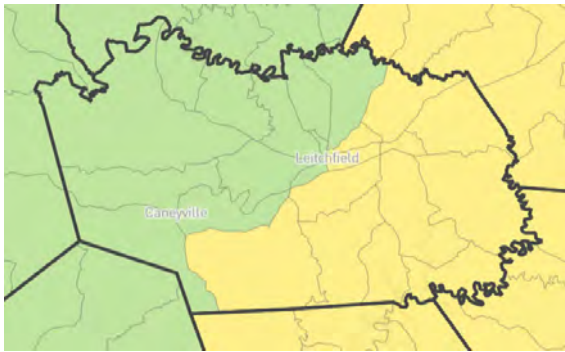

We believe these Recommended Maps, taken together, show coherent districts that can promote growing citizen participation in our democracy, both at election time and in issue debates across the seasons. We recommend them for serious legislative consideration in the coming weeks and months.
